Additional Information

2002-PJT-E006

In case of Main PCB Ass'y & CRT-PCB Ass'y, they are designated as each part code no. per each screen inches.

But, they are compatible so that Main PCB Assy & CRT-PCB Assy are able to mix-use with each inches.

In case of CRT PCB Ass'y , every inches (43", 54" and 62") are compatible as mentioned above.

but, Ground wire of 43" and 54" is shorter than 62".

* Main PCB Ass'y of initial production lot is compatlble with production lot of Sep. 01, 2000

in relation to Scan Module change (9272 --> 9400).

But, in case that only one component part of Micom IC, Scan Module or TTX Module is failed and replaced,

all three parts of Micom IC, Scan Module and TTX Module should be replaced at the same time.
